

PPL - Online English Theory Course

EASA PPL (A) Private Pilot License is a qualification that allows the holder to fly on single-engine piston (SEP) aircraft in visual meteorological conditions (VMC) as pilot-in-command (PIC) or co-pilot on aircraft in non-commercial operations without remuneration. PPL (A) training is the first step towards becoming a professional pilot.

The PPL Online Theory course is designated to teach pilots on a distance-learning basis, which not only saves time and money but also gives the possibility to study when away from school.

PPL(A) Online Course description

- Classes are performed daily from Monday to Friday
- The course includes lessons and consultations
- Access to Flying Academy Testing Portal
- Modernly Equipped Studio for Online Classrooms
- Great Customer Service
